### Letter from the Sheriff

On September 10, 2016 the Missouri Legislature voted to override the Governor's veto of Senate Bill 656. This bill made several changes involving conceal carry permits. One of the changes was the creation of extended conceal carry permits of 10 years, 25 years and lifetime permits. These permits were to be available starting October 14, 2016.

I know several people have inquired about obtaining extended or lifetime permits. At this time we are only able to process and issue 5 year permits. Extended and lifetime permits are currently not available state wide. The reason for the delay is funds were not allocated for the programming that is required to make the current concealed carry system compatible with the requirements of the new law concerning extended and lifetime permits. I have been in contact with and am working diligently with state officials to get this matter resolved. It is my hope that the current issues preventing the issuance of extended permits will be resolved soon.

Randee Kaiser  
Sheriff of Jasper County
